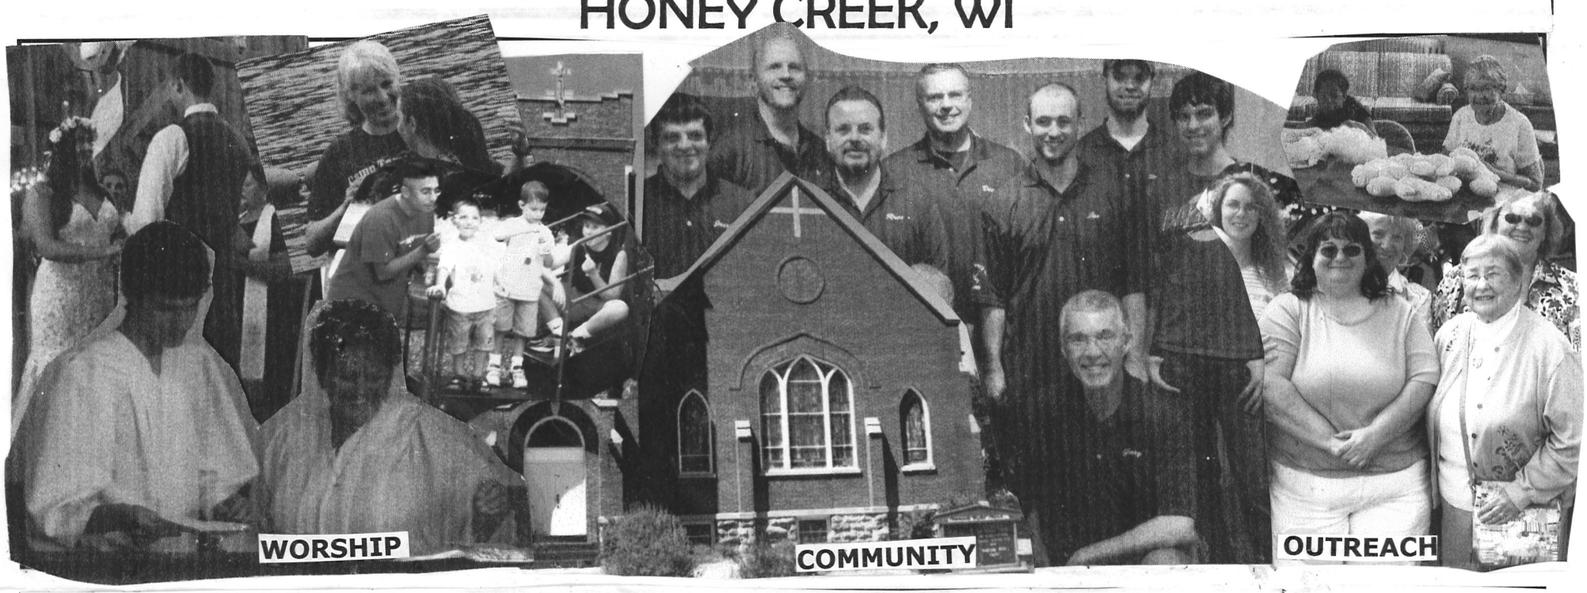
COMMUNITY BAPTIST CHURCH
HONEY CREEK, WI



"LEGACY OF A COUNTRY CHURCH"

Community Baptist Church is a small rural church with a big heart. It has been serving the community of Honey Creek and surrounding villages and communities for 178 years. In 1842 it was one of three Free Will Baptist Churches in the Wisconsin Territory, which ultimately became The Wisconsin Convention. We are a church that is always seeking new ways to reach out to others in love. Since 1995 Community Baptist Church as built a new playground to serve the kids in the community, sent several Mission Teams to Mississippi to aid our brothers and sisters in need, provided camp scholarships for, not just kids from the church, but kids from the Region in need. Community Baptist Church has served & supported our homeless Veterans through, visits, food and gifts, taken fellowship trips together, as a church, and provided many opportunities to serve our God. The purpose of this church, since the beginning of its conception, has always been to give visible form to the faith and fellowship to which God has called His people; to teach and preach the word of God, to reach out to those in need, to love one another as God loves us. Investing in things that count for the kingdom will impact others for God. This is what living "The Legacy of a Country Church" is all about. We are God's chosen, a royal priesthood, a holy nation and to live the legacy, we will continue to praise God and love His people through our ministries at Community Baptist Church.

This church has been served by over 50 pastors since 1841, five since 1995. In 2002 the church called their current pastor. In 2010 the church was made handicap assessable and in 2019 the church hall. In 2018 our beloved Music Director retired after 25 years of service to the church. God blessed us with a very God loving, faithful servant to continue our music ministry. We have always sent delegates to our Annual Gatherings and continue to support the work of ABC/WI.

Our current strategic imperatives of rootedness, collaboration, growth, and transformation will continue to guide us into the year 2020, at which time our four-year strategic plan will be fully evaluated, and a new discernment process will take place. Certainly, these elements of mission and faithful living are worthy to be continually considered, yet priorities may change from time to time. God's guidance will be sought anew for a new decade to come. What is clear in sight, however, is that we, as a diverse region, must continue to witness to the unifying power of Christ.
